

Antiwar and social justice activists from across the country will gather to discuss how to achieve the immediate and total withdrawal of U.S. military forces, mercenaries and contractors from Afghanistan and Iraq.

Instead of trillions for wars and occupations, increase spending for jobs, health care, education, the environment, infrastructure and other human needs.

Our goal is unity in action while respecting our diversity and differences in political program and orientation.

Attend and voice your opinion on what we can do together to end U.S. participation in and support for wars, occupations, bombing attacks, threats and interventions.

Join us in Albany, New York, July 23–25, 2010!
